US, EU, or Canada API

All of our API resources will use api.alchemer.com in example calls, however, if you are using an EU or Canadian account, your calls must use either the `api.alchemer.eu` or `api.alchemer-ca.com` domains.

Not sure if your account is US, EU, or Canada?

Check the URL when you are logged in to the application. If you see app.alchemer .com your account is a US account. *Note that US accounts use the EST/EDT Timezone.*

If you see app.alchemer.eu your account is an EU account. *Note that EU accounts use the GMT Timezone.*

If you see app.alchemer-ca.com, your account is a Canada account. *Note that CA accounts use the GMT Timezone.*
