## Example Returns (.debug format)

- [GetList Return Example](#)
- [Get SurveyPage Return Example](#)
- [Create SurveyPage Return Example](#)
- [Update SurveyPage Return Example](#)
- [Delete SurveyPage Return Example](#)

GetList Return Example (.debug format):

```

Array
(
    [result_ok] => 1
    [total_count] => 11
    [page] => 1
    [total_pages] => 1
    [results_per_page] => 11
    [data] => Array
        (
            [0] => Array
                (
                    [id] => 1
                    [title] => Array
                        (
                            [English] => Page One
                        )
                    [properties] => Array
                        (
                            [hidden] =>
                        )
                    [description] => Array
                        (
                        )
                    [questions] => Array
                        (

```

The remainder of the surveypage object get list return is an array of survey questions. See SurveyQuestion object for more.

#### GetSurveyPage Return Example (.debug format):

```

Array
(
    [result_ok] => 1
    [data] => Array
        (
            [id] => 1
            [title] => Array
                (
                    [English] => Page One
                )
            [properties] => Array
                (
                    [hidden] =>
                )
            [description] => Array
                (
                )
            [questions] => Array
                (

```

The remainder of the surveypage get object return is an array of survey questions. See the SurveyQuestion object for more.

### Create SurveyPage Return Example (.debug format):

```
Array
(
    [result_ok] => 1
    [data] => Array
        (
            [id] => 13
            [title] => Array
                (
                    [English] => TestPage
                )
            [properties] => Array
                (
                    [hidden] =>
                )
            [description] => Array
                (
                )
            [questions] => Array
                (
                )
        )
)
```

### Update SurveyPage Return Example (.debug format):

```
Array
(
    [result_ok] => 1
    [data] => Array
        (
            [id] => 13
            [title] => Array
                (
                    [English] => TestPage
                )
            [properties] => Array
                (
                    [hidden] => 1
                )
            [description] => Array
                (
                )
            [questions] => Array
                (
                )
        )
)
```

### Delete SurveyPage Return Example (.debug format):

```
Array
```

```
(  
  [result_ok] => 1  
)
```
