Create a Poll and Poll Answer Options

Some users have requested an example call for creating a poll using the REST API. The below call creates a survey object with **type=poll**.

When creating a survey object with type=poll the **polloptions** array is required. In the below call we specified 2 answer options like so: **&polloptions[0]=option 1&polloptions[1]=option 2**.

In addition, we specified the **theme=9405** which is the poll theme. Finally, with the optional parameter **polltype, e.g. radio, image or ranking**, can be specified.

> https://api.alchemer.com/v4/survey.debug?
> _method=PUT&title=Poll&type=poll&theme=9405&polltype=ranking&polloptions[0]=option
> 01&polloptions[1]=option 2

.debug Formatted Return

```
