

List Survey Responses

Returns a paginated list of all responses for the specified survey. Deleted responses are excluded from results.

Endpoint

GET v5/survey/{survey_id}/surveyresponse

Requires authentication

Path Parameters

The survey whose responses should be retrieved.

survey_id

string

required

The ID of the survey whose responses will be listed.

Query Parameters

All query parameters are optional.

page

integer

Page number to return. Defaults to 1. Results return 50 per page by default.

resultsperpage

integer

Number of results to return per page. Default is 50, maximum is 500. Values exceeding the limit will fall back to 500.

order_by

string

Sort order for results. Accepted values: `date_submitted`, `-date_submitted`, `date_updated`, `-date_updated`. Prefix with `-` for descending; default is ascending.

filters

array

List of filter conditions used to match response fields.

+▶ child attributes

Response

Returns a paginated array of survey response objects.

result_ok

boolean

Whether the request succeeded.

total_count

integer

Total number of responses matching the request.

page

integer

Current page index.

total_pages

integer

Number of available pages.

results_per_page

string

Number of responses returned per page.

data

array

Array of survey response objects.

+▶ child attributes

Examples

REQUEST (CURL) — BASIC LIST

```
curl -X GET "https://api.alchemer.com/v5/survey/8611799/surveyresponse?api_token=YOUR_API_TOKEN&api_token_secret=YOUR_API_TOKEN_SECRET"
```

RESPONSE — BASIC LIST
