

List Survey Questions

Returns a list of all questions for the specified survey.

Endpoint

GET v5/survey/{survey_id}/surveyquestion

Requires authentication

Path Parameters

The survey whose questions should be retrieved.

survey_id

string

required

The ID of the survey whose questions will be listed.

Query Parameters

This endpoint does not accept additional query parameters beyond authentication credentials.

None

Response

Returns a paginated list of question objects for the specified survey. The list includes all question types — text inputs, choice questions, essay fields, hidden fields, decorative elements, and actions.

result_ok

boolean

Whether the request succeeded.

total_count

integer

Total number of questions in the survey.

page

integer

Current page index.

total_pages

integer

Number of available pages.

results_per_page

integer

Number of questions returned per page.

data

array

Array of survey question objects.
