

Get Survey Question

Returns detailed information about a specified survey question, including its type, title, options, and configuration properties.

Endpoint

GET

v5/survey/{survey_id}/surveyquestion/{question_id}

Requires authentication

Path Parameters

The survey and specific question to retrieve.

survey_id

string

required

The ID of the survey the question belongs to.

question_id

string

required

The ID of the specific question to retrieve.

Query Parameters

This endpoint does not accept additional query parameters beyond authentication credentials.

None

Response

Returns a single survey question object wrapped in a `data` envelope.

result_ok

boolean

Whether the request succeeded.

data

object

The survey question object.
