

# List Survey Themes

Returns a paginated list of all themes in your account's theme library.

## Endpoint

**GET** v5/surveytheme

Requires authentication

## Path Parameters

This endpoint does not include path parameters.

None

## Query Parameters

All query parameters are optional.

### **page**

*integer*

Page number to return. Defaults to 1.

### **resultsperpage**

*integer*

Number of results to return per page. Default is 50, maximum is 500.

## Response

Returns a keyed object of survey theme objects, where each key is the theme ID.

### **result\_ok**

*boolean*

Whether the request succeeded.

### **data**

*object*

Keyed object of theme objects, where each key is the theme's numeric ID.

- ▼ child attributes

**id**

*integer*

The unique ID of the theme.

**status**

*string*

The theme's status. Possible value: `Active` .

**created**

*string / null*

Timestamp when the theme was created, or `null` .

**name**

*string*

The display name of the theme.

**style\_options**

*object*

The full set of visual styling options for the theme. See [Get Survey Theme](#) for the complete list of style option fields.

**Body**

*string*

The theme's HTML template body.

**css**

*string*

Custom CSS applied to the theme.

## Examples

NOTE GET requests are cached for 60 seconds. Repeated identical requests within that window will return cached results.

**REQUEST (CURL)**

```
curl -X GET "https://api.alchemer.com/v5/surveytheme?api_token=YOUR_API_TOKEN&api_token_secret=YOUR_API_TOKEN_SECRET"
```

## RESPONSE
