

Update Survey Theme

Updates a specified theme in your account's theme library. Include only the fields you want to change — all parameters are optional.

Endpoint

POST v5/surveytheme/{theme_id}

Requires authentication

Path Parameters

The theme to update.

theme_id

string

required

The ID of the theme to update.

Query Parameters

All query parameters are optional. Include only the fields you want to change. Hex color values should URL-encode `#` as `%23`. See [Create Survey Theme](#) for the full list of accepted parameters and their accepted values.

name

string

Updated display name for the theme.

header_image_url

string

Updated URL for the header image.

background_body_color

string

Updated hex color code for the survey background.

header_background_color

string

Updated hex color code for the header background.

page_background_color

string

Updated hex color code for the page background.

accent

string

Updated accent color for buttons and progress bar.

base_font_family

string

Updated font family for body text.

custom_css

string

Updated custom CSS for the theme.

custom_html

string

Updated custom HTML template body.

Response

Returns the updated theme object. See [Get Survey Theme](#) for the full list of response fields.

result_ok

boolean

Whether the request succeeded.

data

object

The updated theme object, including all resolved `style_options` .

Examples

REQUEST (CURL)

```
curl -X POST "https://api.alchemer.com/v5/surveytheme/YOUR_THEME_ID?api_token=YOUR_API_TOKEN&api_token_secret=YOUR_API_TOKEN_SECRET&name=Updated+Theme+Name&accent=%23ff9900"
```
